AGRONOVA 26
CIRCULAR BIO-ECONOMY IN MODERN AGRICULTURE
Prioritising & Practicing Sustainability

MAY
20 & 21
2026

 AC&RI, TNAU, Coimbatore

CONCEPT

CIRCULAR BIOECONOMY IN MODERN AGRICULTURE

Prioritising and Practising Sustainability

The theme highlights the need to build a sustainable agricultural future through circular bioeconomy principles. It focuses on the efficient use of biological resources, waste reduction, recycling agricultural residues, and converting by-products into valuable farming inputs. By integrating innovation, eco-friendly technologies, and resource-efficient practices, it aims to create a resilient and regenerative agricultural ecosystem. It encourages young minds to view agriculture as a closed-loop system, where every output becomes an input for another process, ensuring minimal loss and maximum productivity. This progressive vision empowers the next generation to lead agriculture towards sustainability, profitability, and environmental balance.

AGRONOVA

Agronova is a scientific event warmly welcomes the future enthusiasts of the Indian nation. This prestigious occasion offers each participant a level playing field to showcase their hidden talents. Agronova'26 cordially invites all inquisitive and passionate minds to delve into India's agricultural backbone. Don't miss out on this valuable opportunity-join us and showcase your talents to hit our targets.

TNAU

Established in 1868, TNAU has grown to become a premier institution in agricultural education, research, and innovation. Located in Coimbatore, Tamil Nadu, TNAU offers a diverse range of undergraduate, postgraduate, and doctoral programs in agricultural sciences. Recognized among the finest, the ICAR awarded the "Sardar Patel Outstanding ICAR Institution Award 2021" under Agricultural University category and "Institute of Excellence Award 2021", 8th FICCI Higher Education Excellence Awards 2022, SKOCH award for innovative projects 2023, and an ELITE world record for mass planting 2023. Among SAUs, TNAU stands 2nd at the National level and 1st among the Southern Agricultural Universities.
