

BIO-ALCHEMY

Bio-alchemy is a gathering or contest where participants showcase and compete with their innovative technology in the field of agriculture. Here participants have to prepare a prototype according to the theme and also they have to submit a detailed report on their prototype.

THEME: WASTE VALORIZATION - From Trash to cash

RULES AND REGULATIONS:

- One entry per college.
- Each team should contain 2 members.
- The participants have to prepare a fully functional prototype (working model) related to the given theme.
- Prototype should be designed by students themselves and should be done beforehand.

PHASE 1: REPORT SUBMISSION (ONLINE MODE):

- A detailed report of not less than 2 pages about the prototype must be submitted to the college before the deadline.
- The prototype should be sent to the email id (tnau.agronova26@gmail.com).
- Send the abstract in PDF format.

Report Should Contain:

- Abstract (not more than 250 words)
- Working principle
- Diagram depicting the prototype
- Cost economies
- Current relevance
- Future opportunity for the project
- **Last date of submission: 16/05/26**

ROUND 2: PROTOTYPE EXHIBITION (OFFLINE MODE):

- The prototype has to be exhibited on the day of AGRONOVA.
- Diagrams and charts can be exhibited along with the model.
- Each team will be given 5–10 minutes for explanation.
- Each team will be evaluated according to the prototype and the way of explanation.
