

## YOUTH PARLIAMENT

The event focuses on bringing together ideas on the sustainable management and recycling of agricultural resources and farm residues across different countries. The student council will express their views, identify key challenges, and propose innovative recycling strategies while allocating a given budget to strengthen sustainable agricultural practices. Emphasis is placed on efficient utilization, waste reduction, and resource conservation for long-term productivity.

### **RULES AND REGULATIONS:**

- One entry per college. Each team should contain 2 members.
- Teams representing different countries will be stating their pros, cons, frame Suitable policies, provide suitable solution for their constraints, and fight for Budget.
